

April 2024 Newsletter

Pallet Chief Manufacturing

Greetings,

I hope this email finds you well. I wanted to inform you this month, for those who didn't know, that a majority of our sales come from clients that build "custom sized pallets," and we have an engineering team that are dedicated to designing machines of all different sizes and modifications. We have and are designing machines that build up to 20 ft long or up to 20 ft wide pallets and all sizes in between. If this interests you, send me the prints of the pallets you wish to produce. I will then look over them with the team here, then set up a call so we can discuss your project, and I could give you a quote within 24 to 48 hours.

This is a rare service in the industry that we are proud to be the leader. Let us be your "go to" for this service.

Our "promotion by demand on our most high capacity Machines ends at the end of April. It remains as follows: if you order a PCIII, PCIV, or the new PCIV GMA in April and use the PROMO code "Know what I mean Vern" in your email "subject" line, you will get 3% off your order or 1 year free replacement parts.

NOW IS THE TIME TO ACT. DON'T LOSE VALUE IN WAITING!

Burl or myself will be happy to assist you in your order or answer any questions.

Click [here](#) to see the "PC IV GMA" in action.

Please get in touch with Burl at 256-391-7211, email at sales@palletchief.com, or me at the contact information below for more information. Don't forget to put "Know what I mean Vern" in the email "subject" line to take advantage of April's special offers.

Remember, we have an excellent financial advisor in Chris PFriem with American Bank (ACG) partners with us to provide excellent financial services. They also offer 3 to 6 month deferred payment options to those that qualify. Chris and his team have helped hundreds of our clients secure affordable financing and terms. He can be reached at CPfriem@americanbank.com or 440-579-0404. Please feel free to contact him anytime during your decision-making process.

I look forward to giving you more industry "nuggets" next month.
